

# Smoother Passage

**Smart gadgets to tackle problems that often arise during travel**

Nidhi Singal

June 22, 2014

## **Aero-Tray**

Price: \$59. Available at [www.travelsmith.com](http://www.travelsmith.com)

The Aero-tray mounts securely onto your seatback tray on the flight. Its "Z" design is adjustable and creates a secondary shelf. The Aero-tray creates an angle of support in coach seating, allowing usage of a laptop without interfering with your fellow passengers' space. It also doubles as a protective carrying case for small devices and slides easily into a standard laptop bag.
